

STATE OF IOWA
BEFORE THE IOWA UTILITIES BOARD

IN RE: DISTRIBUTED GENERATION	DOCKET NO. NOI-2014-0001
--	---------------------------------

MOTION TO WITHDRAW PRELIMINARY IMPLEMENTATION PLANS

COMES NOW, Interstate Power and Light Company (IPL), and moves to withdraw its preliminary implementation plans that the Iowa Utilities Board (Board) in the Order Regarding Policy Statement, Rate Design Presentations, and Net-Metering Generation Pilots on October 30, 2015 (October 30th Order), directed IPL to file. In response to the October 30th Order, IPL filed three preliminary implementation plans on March 28, 2016, which it now seeks to withdraw:

1. Residential and General Service Customer-Owned Renewables Rate Design Pilot;
2. Large General Service Customer-Owned Renewables Rate Design Pilot; and
3. Community Solar Pilot.¹

Concurrent with this request to withdraw its preliminary implementation plans and consistent with the Board's Order on July 19, 2016 Directing Filing of Net Metering Tariffs, IPL is filing its proposed three-year net-metering pilot tariff in Docket No. TF-2016-0321. IPL respectfully suggests the Board consider closing Docket No. NOI-2014-0001.

¹ Although IPL wishes to withdraw its Community Solar Pilot, IPL fully intends to pursue this program via a future tariff filing.

WHEREFORE, Interstate Power and Light Company requests that the Board accept IPL's Motion to Withdraw Preliminary Implementation Plans.

Dated this 31st day of August, 2016.

Respectfully Submitted,

Interstate Power and Light Company
